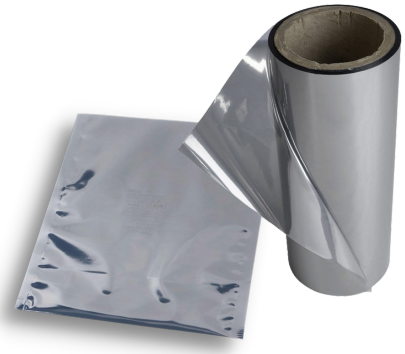
CLEAN STATIC CONTROL PRODUCTS

PCL100 Series Certified Clean Bags and Film

Static Shielding packaging designed for cleanrooms. Each lot is tested in accordance with IEST-STD-CC1246E.



Clean ESD Attention Label, with Plastic Core

The labels with the ESD susceptibility symbol and warning message are on a plastic core and double bagged.

Ultra Clean Static Dissipative Kitting Trays

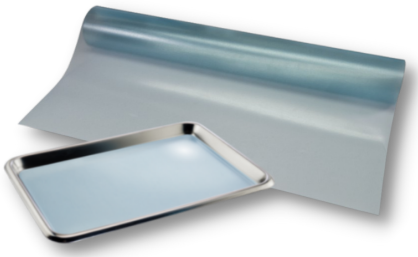
Made from a cleanable, inherently static dissipative PETG and thermoformed for long term use.

Thermoplastic Wrist Straps

An easy and quick-to-clean solution for grounding operators that can be cleaned with mild detergent or 10% isopropyl alcohol solution.

C10 Series Transparent Clean ESD Armor

Ultra-low outgassing, non-VOC, non-blooming, non-particle generating, permanently static dissipative transparent liner.



Fan and Compressed Air Ionizers

As well as controlling isolated conductors and process essential insulators, ionizers can handle Electrostatic Attraction (ESA) where particulate and contamination control is required.
