

# STATIC CONTROL SERVICES

**FROM THE STATIC  
CONTROL EXPERTS**

## WHY CHOSE SCS FOR YOUR ESD CONTROL NEEDS?

SCS is the MOST COMPLETE Static Control Solution and the largest manufacturer of Static Control products in North America. SCS is a vertically integrated manufacturer that spans from raw materials to finished products, providing unique control over the supply chain, product development, manufacturing, and quality management.

*If you've got an ESD control requirement, we've got you covered!*

### EOS/ESD Assessments

EOS/ESD Assessments identify where ESD Events are occurring and verify that your ESD Program is working.

### Qualified Materials List Review/Implementation

Assistance in developing your Product Qualification Plan, to include a list of ESD control items and their specifications per ANSI/ESD S20.20.

### ANSI/ESD S20.20 Training

A certification course on the ANSI/ESD S20.20 standard. Targeted at those who are new to the implementation and management of an ESD Program.

### Personalized Facility ESD Basics Training

ESD Basics training customized to your facilities requirement. Designed for anyone who handles or comes into contact with ESD Sensitive Devices.

### ESD Control Program Review/Implementation

Support with creating or reviewing your ESD Control Plan to be in compliance with ANSI/ESD S20.20
