

## PACKAGE

Tester Only

Tester with Stand and Foot Plate

## CUSTOM TEST LIMIT INSTRUCTIONS

Use the forms below to select the high and low test limits for the footwear and wrist strap test circuits. Fail points are determined by the factory. They are typically 20% higher and lower than the pass limit.

\*The Combo Tester must have the same low test limit for both the footwear and wrist strap circuits. The low test limit is shared by both circuits.

### FOOTWEAR TEST LIMITS

**High Limit Pass:** Default Limit - 100 megohms ( $1.0 \times 10^8$  ohms)

Custom Limit (500 megohms max):

**\*Low Limit Pass:** Default Limit - 750 kilohms ( $7.5 \times 10^5$  ohms)

Custom Limit (5 kilohms min):

### WRIST STRAP TEST LIMITS

**High Limit Pass:** Default Limit - 10 megohms ( $1.0 \times 10^7$  ohms)

Custom Limit (150 megohms max):

**\*Low Limit Pass:** Default Limit - 750 kilohms ( $7.5 \times 10^5$  ohms)

Custom Limit (5 kilohms min):
