

# Virtual EOS/ESD Assessment

BEYOND A TRADITIONAL ESD SURVEY...

# VIRTUAL EOS/ESD ASSESSMENT

EOS/ESD Assessments identify where ESD Events are occurring and verify your ESD Program is working.

## The SCS EOS/ESD Assessment - Revamped and Refocused!

Fully equipped to assist customers in completing a virtual assessment, here's how:

- Video walk through of facility (if allowed)
- SCS Assessment App to record readings
- Utilizing the Local SCS Rep's Assessment Kit as a loaner
- Detailed report to customer and distributor partner with process and product recommendations

*Available on Multiple Platforms*

Tests & Measurements are performed throughout your entire process:

- Receiving
- Tool Crib
- Automated Insertion
- Manual Insertion
- Final Assembly, Testing, QC and Packaging

Our Assessment Measures:

- ESD Events
  - Counts Events
  - Shows magnitude of events
- EMI Voltage, cause of Electrical Overstress (EOS)
- Ground Integrity
- And More...

### REQUEST

Request your EOS/ESD Assessment online FREE of Charge.

### MEASURE

We perform tests and take measurements throughout your entire process.

### EVALUATE

We will assess your current ESD program and compare the results to the ESD Standard ANSI S20.20.

### REPORT

You will receive a full written report presenting solutions and fixes per ANSI S20.20.

### VERIFY

Beyond the scope of a regular ESD Survey, we can actually show that your ESD Control program is working.

*Contact SCS today for information about scheduling an EOS/ESD Assessment for your facility at No Charge.*
