# TEAM

Total ESD Awareness & Management

SCS can guide you in developing and managing an ESD Control Program that complies to the industry-standard ANSI/ESD S20.20-2021. By joining the SCS TEAM, we will eliminate any uncertainties and help you in implementing a fully compliant ESD Program.

WHAT WE OFFER

EOS/ESD ASSESSMENT

Allow us to evaluate your existing ESD program and provide recommendations for compliance to the industry-standard.

ESD TRAINING

Offer operators ESD Basics training that can be tailored to compare existing practices with recommended practices, ensuring an effective ESD program.

ANSI/ESD S20.20-2021 TRAINING COURSE

Receive invitation to participate in our exclusive ANSI/ESD S20.20-2021 Training, specifically designed to educate your ESD Coordinator(s).

WRITTEN ESD CONTROL PLAN

Support in developing a written ESD control plan, product qualification plan and compliance verification plan.

QUALIFIED MATERIALS LIST

Will provide recommendation for a Qualified Materials List to maintain your ESD Control Program for compliance to the industry standard.

QUARTERLY MEETINGS

To review and support any current issues arising in your ESD Control Program.
